

Polaron has over thirty years experience in manufacturing specialised glass, high vacuum products, secondary standard lamps and scientific products.

The Polaron Group operates systems and procedures in accordance with ISO 9001 : 2000 certification. In addition to high quality manufacturing, the division can provide a specialist glass engineering team to work with customers to offer a solution for a particular application.

Polaron employs a dedicated team of professionals with a wealth of experience and a diverse range of skills necessary to manufacture our Glass products. We also offer a specialised Glass-blowing repair service.

Polaron already services many laboratories operating within Universities, Colleges, National Institutions and pharmaceutical companies.

Apart from our repair service new components and scientific glassware are often manufactured to our customers' specification. Whether it is for 'one off' or thousands of pieces every customers order is given the same individual care and attention.
